Callipo and Tropea, Italy

Our visit to Callipo (tuna factory)

We got a great opportunity to visit Callipo company. The company makes different kind of tuna products but also ice cream. We got a presentation from tuna factory and we also saw it s production side. The presentation was interesting and gave us valuable information about entrepreneur's life.

After Callipo's factory visit we stopped by to their cafeteria. The company gave us gift cards to the cafe. We ate some snacks and then their delicious ice cream.

Tropea

We had free time and we went to the beach. Some of us swam and water was really warm. Italians said that water was cold but for us Finns water was warmer than in any place in Finland. Time on the beach was one of the best moments of our trip to Italy.

Amazing views,
amazing places
and amazing
people <3

In the evening we gathered to ice cream bar and hung out together. Most of our group were there but some were missing. It was a great night!
