

ERASMUS WEEK : MONDAY

Here are some feelings from the first
day with the Italians

THE START OF THE DAY

In the morning we all came to school with our partners at 8.45.

We started the day in sports hall by introducing ourselves to everyone.

Then we played some fun games in the hall, for example, Kahoot and different introducing games until lunch.

After lunch the Finns said goodbye to the Italians for a while when the Italians went on a sightseeing tour in Isokyrö and the Finns went to normal lessons.

When the Italians came back, we were divided into two groups.

The first group was first playing floorball and the other group was baking some traditional Finnish foods. Then we changed the roles.

At the end of the school day we ate together food that we had baked.

WELCOME PARTY

In the evening we had Welcome party at 18 where the host families were also invited.

Everyone brought some Finnish salty or sweet food.

Mimmi hosted the party.

Both Finns and Italians sang a song together to everyone.

We had cake building competition. There were no losers or winners but the better people answered, the more ingredients they got. And then they had to build a cake using everything they got.
