

# Erasmus+

12.10.2023

# Activities in the school labs

- We started our day in the planetarium where we watched videos about space
- Then we went to the school gym and played table tennis and volleyball
- After the gym we went to a classroom to learn some basic Italian phrases

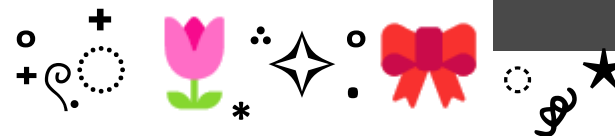

# Reggio Calabria

- After lunch we went to Magna graecia national museum. In the museum we learned about Reggio Calabria and how it was colonized by the Greeks
- We were supposed to visit the Cathedral and other places of cultural interest but we ran out of time. However, we had time for ice cream.

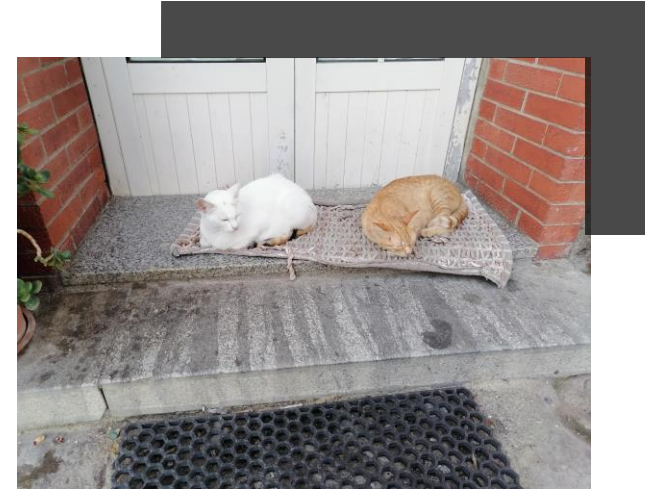

More photos  
from the  
museum

There were for example  
famous bronze statues and  
ancient things

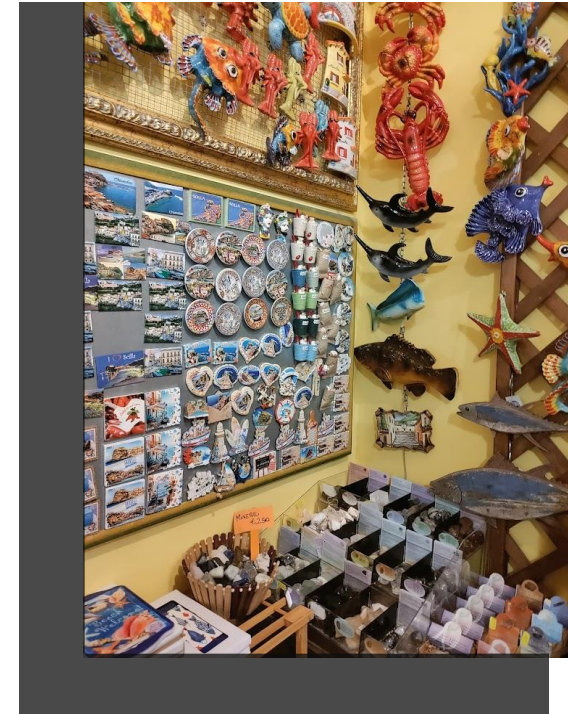

# Scilla, Chianalea

- After eating the ice cream we went back on the buss and drove to Scilla
- We walked around, watched the sun set and visited the gift shops.
